

### Author Contribution Form

**Title of Manuscript:**

.....

.....

Authors must meet the following criteria:

1. Authorship requires at least three contributions listed in the table below, including a critical review of the article, which is a mandatory contribution for all authors.
2. All authors are required to contribute to the outline of the article or to intellectually review or critique the content of the article (All names must be included in the Critical Review stage).
3. All authors are responsible for approving the final version of the article.
4. Persons who do not make the required number of contributions and do not meet the above criteria SHOULD NOT be included as authors in the article. Instead, they can be listed in the Acknowledgments section at the end of the article.
5. These conditions have been regulated in accordance with the guidelines of the Editorial Board of the Council of Science (CSE) and the International Committee of Medical Journal Editors (ICMJE)

For more details: <https://www.councilscienceeditors.org/> and <http://www.icmje.org/>
