

2024 Subject Index

Title	Page
A comprehensive analysis of demographics, comorbidities, and laboratory findings in adult celiac disease patients: a single center experience	196
A rare case of lipoid pneumonia due to diesel aspiration	73
A rare coronary anomaly: the right coronary artery originating from the left anterior descending artery	27
A retrospective analysis of postoperative geriatric patients with hip fracture; the reasons for admission to ICU	5
Acute concurrent bilateral internal carotid artery occlusion: a teaching clinical image	29
Assessing the impact of internal carotid artery stenosis on choroidal thickness using Cirrus optical coherence tomography	19
Assessment of first-time attendees at a pain clinic using a pain inventory tool	68
Association of visceral and subcutaneous adiposity with tumor and histologic grade in breast cancer	124
Cancer screening in people aged between 30-69 in a town: a cross-sectional study in Turkey	105
Cerebral venous thrombosis with clinical, etiological and radiological findings	146
Clinical characteristics of patients admitted to Samsun Training and Research Hospital from the Turkiye-Syria earthquake region	158
Comparison of detailed brain volume measurements in schizophrenia with healthy individuals	52
Comparison of the efficacy of two different doses of low-dose bupivacaine for spinal anesthesia in patients undergoing cesarean operations on anesthesia quality and intraoperative hemodynamic parameters	96
Effect of lipoic acid on cisplatin-induced cardiotoxicity and inflammation in cardiomyocytes	175
Endovascular treatment for carotid stenosis developing after neck radiotherapy	142
Evaluation of dyspepsia symptom severity in pediatric patients: association with endoscopic and pathological findings	165
Evaluation of hematological markers and disease activity in relapsing-remitting multiple sclerosis	119
Evaluation of intracranial pressure using optic nerve sheath diameter in patients undergoing thulium laser prostatectomy with spinal or general anesthesia	111
Evaluation of patients presenting with headache to the emergency outpatient clinic	62
Evaluation of pediatric patients referred from the secondary care state hospital emergency department	88
Evaluation of the effect of the COVID-19 pandemic on the depression, anxiety and stress levels of anesthesiology and reanimation doctors, and their work and social lives	39
Evaluation of the immature granulocyte count in idiopathic sudden sensorineural hearing loss	182
Hairy tongue secondary to antibiotic usage	76
Health follow-up visits of children with autism	22

Impact of the COVID-19 pandemic on diagnostic breast biopsies: a retrospective comparative study	192
Investigation of psychopathology in patients with chronic idiopathic urticaria	133
Investigation of the effect of disease acceptance and action status of type 2 diabetes patients receiving oral antidiabetic and insulin treatment on their compliance to treatment	152
Investigation of the frequency of wheezing and airway resistance using the interrupter technique in children born premature and over 3 years old	170
Labial fusions and age periods	102
Nonoperative management of blunt splenic injury: a rural hospital experience	187
Optimizing patient care: rethinking referrals for iron deficiency anemia in internal medicine	78
Perceptions of intensive care nurses on the concepts of brain death and coma: a metaphor analysis	45
Permanent hemodialysis catheters inserted with traditional (blind) technique: 10 years experience	80
Relationship of atherogenic index of plasma with exercise, obesity and biochemical parameters	33
Retrospective analysis of acute intoxication cases in the intensive care unit: a 5-year single-center study	115
The contribution of imaging to non-invasive fibrosis biomarkers in the diagnosis and staging of chronic liver disease	15
The predictive value of first trimester maternal serum pregnancy-associated plasma protein-a (papp-a) level in predicting gestational diabetes mellitus	10
The role of immature granulocytes in the early diagnosis of pneumonia developing secondary to rib fractures	84
The role of using antitussive for premedication of bronchoscopy	1
Unusual cervical involvement in psoriatic arthritis and the presence of cervical and facial dystonia: a case report	128
Use of ultrasonography in the diagnosis of pneumonia in intensive care patients	200
Who first? Should the surgeon prioritize the patient's benefit or protect himself/herself?	131
